

United Steelworkers
Local Union 3657
60 Boulevard of the Allies, Room 706
Pittsburgh, PA 15222

**Organizing Committee
Aug. 27, 2015**

This month has been a busy month for Fight Back Pittsburgh. Following the winning city council vote to pass Paid Sick Days legislation we stood with hospital workers, have continued to support steelworkers at ATI, US Steel and Arcelor Mitttel. We are continuing to work with Pittsburgh United in the beginning discussions of educating workers on their right to paid sick days, as well as implementing the legislation.

As the fight for fair contracts for Steelworkers continues we are turning out to the picket lines and rallies, participating in art builds, and are excited to participate in a day of action Sept 1st. Following that we are hosting a post-labor day fundraiser for ATI after the parade on September 7th.

We also have stood with residents in East Liberty and elsewhere fighting for fair and affordable housing within the Black Homes Matter movement.

Moving into the fall we are continuing to focus on organizational development and ensuring we are operating in the most democratic, inclusive, and efficient way.
